

JUMPSTART PROGRAM

At NCC, we invite and encourage you to “jumpstart your semester” by attending one or more of the workshops offered by the Center for Teaching and Learning Excellence.

For ALL Faculty Members

Introduction to Blackboard 9.1: Blackboard, the online course management system used at NCC, was upgraded at the end of the Spring 2012 semester. Join us at this workshop to get an overview of the changes and to find out about additional Blackboard resources. **For adjuncts with little to no Blackboard experience; must have an active Easy Login account; bring course syllabus on USB flash drive.**

Instructional Technology Orientation: All NCC classrooms are now equipped with some of the latest educational technology. In this workshop, you will learn how to operate this equipment and where you can turn for support.

Library Resources: Our online resources have been redesigned to facilitate the research process. Tutorials, enhanced topic pages, and the library edition of EasyBib are just some of our new features. Explore along and ask questions!

For NEW Faculty Members

Introduction to Online Mail, Computer Labs and Phones: Learn how to secure a school e-mail account and how to access it. We will also review the procedures covering computer lab usage and how the classroom emergency phones work. Finally find out who to contact when you get in over your head.

Overview of College Policies and Student Support Services: This workshop will provide an overview of college policies including accessing SIS, AF, incompletes, FERPA, and RAPs, mailroom policy, and various student support programs. Important deadlines to be observed during the semester will also be reviewed.

What is a RAP? Reasonable Accommodation Plans: Information and FAQs: This presentation will give faculty a general overview of a RAP, explain how the process works and what is expected of instructors, and discuss changes that have been made to the NCC plan as well as future goals for Disabilities Support. There will be a Q&A session after the presentation to answer any questions that people may have about RAPs.
