FINALS WEEK POLICY

Days: Each semester, a final exam schedule is published due to the fact that final exams in some courses require more time than the normal class time allocated. Final exams will be given during the scheduled exams week. If a course requires a final project or presentation in lieu of a final exam, it will be due during the scheduled final exam period.

Evenings: Final exams will be given during the last night of the term. If a course requires a final project or presentation in lieu of a final exam, it will be due during the last night.
