CORPORATE & COMMUNITY EDUCATION  
at Nashua Community College

# Customized Business Training

As a community college it is part of our mission to provide quality educational programs that respond to your business needs. We know your business training needs are unique. This is why NCC offers training on our campus or at your office. We have instructors with both corporate and teaching expertise in a wide range of business, health, and technical industries.

In addition to utilizing our faculty we work closely with area vendors and community businesses. Our dedication to finding the best solution allows us to better serve the community and better prepare our students for employment.

*We can help you find the business training solution you have been looking for.*

New Hampshire  
**jobTrainingfund**

*NCC works with the NH Job Training Fund to match eligible businesses with the funds for business training.*
