

# Construction and Renovation Projects

Nashua Community College

## *2021 - Onward*

- **Spring 2021:** The College and Campus master plan is slated to begin implementation in 2021. The master plan outlines updates to the college infrastructure, layout, format and usage for the next 10-12 years.
- **Spring – Summer 2021:** Planned construction project for the Streeter Hall east wing, including a roof replacement with minor mechanical/architectural retrofits to the building structure.
- **Summer 2021:** Planned construction to the Automotive Lab, including a paint booth removal and installation of new paint booth and mixing room.
- **Beginning in Late 2021:** The College is planning a “STEM” renovation of Streeter Hall, including a significant renovation to Streeter Hall second, third and potential areas of the first floor classrooms, labs, offices, and hallways.  
This renovation project will modernize and upgrade the building’s architectural, mechanical, electrical, HVAC and IT infrastructure systems in accordance with providing modern technology-based classrooms, labs, collaboration study areas.

## *2019-2020*

- **Academic Year 2019-2020:** Nashua Community College had no construction or renovation projects.
