

Program Plan (April 2020 – September 2023)

Program: Automotive Technology

Program Coordinator: Tim Hogan

1. Student Engagement and Success

Goal One: Continue with the Auto Club

Action 1:

Current Status (include relevant data): Active with meetings weekly and events per semester

Outcome (measure of success): keep and built interest and community within the department and school

Action Start Date:

Targeted Completion Date:

Required Funding: Funding comes from Student Senate

Individual responsible: Ben Wagstaff

Action 2:

Current Status (include relevant data):

Outcome (measure of success):

Action Start Date:

Targeted Completion Date:

Required Funding:

Individual responsible:

Goal Two: Shop Project Car

Action 1:

Current Status (include relevant data): In process, last semester I took in a 67 Camaro to get running after having sat for 15 years. Students worked on this in the 106 class but the car need more work then what was covered. Having Fridays free, I told students that is they were interested they could come in on Fridays to work on whatever was need and I would teach them about whichever system needed attention. 3-4 students regularly showed up and really like working and looked forward to working on it again the following semester.

Outcome (measure of success): interest in what we do as a profession and a more relaxed setting then a normal lab.

Action Start Date: Fall 2019

Targeted Completion Date:

Required Funding: None

Individual responsible: Tim Hogan

Action 2:

Current Status (include relevant data):

Outcome (measure of success):

Action Start Date:

Targeted Completion Date:

Required Funding:

Individual responsible:

2. Enrollment and Sustainability

Goal One: Finish decorating the “new” lobby area

Action 1:

Current Status (include relevant data): in planning

Outcome (measure of success): Turn the strange entryway into a showcase of what we do

Action Start Date: In process, fall 2019

Targeted Completion Date: April 2nd

Required Funding: 2,000 dollars

Individual responsible: Scott, Tina, Barry, Tim

Action 2:

Current Status (include relevant data):

Outcome (measure of success):

Action Start Date:

Targeted Completion Date:

Required Funding:

Individual responsible:

Goal Two: Annual Career Discovery Day

Action 1:

Current Status (include relevant data): First day is in the works for April 2nd

Outcome (measure of success): Number of schools attending and increase in enrollment

Action Start Date: on going

Targeted Completion Date:

Required Funding: ??

Individual responsible: Karl, Laura, etc

Action 2:

Current Status (include relevant data):

Outcome (measure of success):

Action Start Date:

Targeted Completion Date:

Required Funding:

Individual responsible:

3. Diversity and Inclusion

Goal One: Begin tracking current trend

Action 1:

Current Status (include relevant data): unknown

Outcome (measure of success): have a known number

Action Start Date: Spring 2020

Targeted Completion Date: on going

Required Funding: none

Individual responsible: Tim Hogan

Action 2:

Current Status (include relevant data):

Outcome (measure of success):

Action Start Date:

Targeted Completion Date:

Required Funding:

Individual responsible:

Goal Two:

Action 1:

Current Status (include relevant data):

Outcome (measure of success):

Action Start Date:

Targeted Completion Date:

Required Funding:

Individual responsible:

Action 2:

Current Status (include relevant data):

Outcome (measure of success):

Action Start Date:

Targeted Completion Date:

Required Funding:

Individual responsible:

4. Efficiency and Effectiveness

Goal One: Communication, CCs on pertinent emails, budget info etc

Action 1: Emails and information should be forwarded or cc'd either up the chain or down to reduce duplicate efforts.

Current Status (include relevant data): Some information does not make to all parts

Outcome (measure of success):

Action Start Date: Spring 2020

Targeted Completion Date: on going

Required Funding: none

Individual responsible: everyone

Action 2:

Current Status (include relevant data):

Outcome (measure of success):

Action Start Date:

Targeted Completion Date:

Required Funding:

Individual responsible:

Goal Two: Assessing Effectiveness

Action 1: Implement a single, competency-based quiz for each course within each program at the end of the semester.

Current Status (include relevant data): In process

Outcome (measure of success): Collecting data for assessment at the end of the semester.

Action Start Date: May 2020

Targeted Completion Date: May 2020

Required Funding: None

Individual responsible: All Transportation Technology Faculty

Action 2: Administer a competency-based quiz at the beginning of the semester to more accurately measure out students' progress and our effectiveness.

Current Status (include relevant data): In process

Outcome (measure of success): Being able to see how much our students learned between when they started and finished each course.

Action Start Date: September 2020

Targeted Completion Date: December 2020

Required Funding: None

Individual responsible: All Transportation Technology Faculty
