

Standard 5.3 Placement

Students are assisted in placement in a few different ways.

Facebook

We have a number of shops on our Facebook page that are willing to hire our students.

Advisory Board

Our advisory board has the most contact with our program and is able to hire students and provide us with direct feedback on their skill areas.

NHADA

The New Hampshire Automobile Dealers Association helps with placement of our current students.

Graduate Survey

One of the question is the graduate survey is if the graduate would like assistance in job placement. Depending on what the student is looking for we can use any one of the above methods to place that graduate.
