

## Connecting to Wi-Fi Using Your Android

Navigate to your Apps screen, then select the **Settings** icon

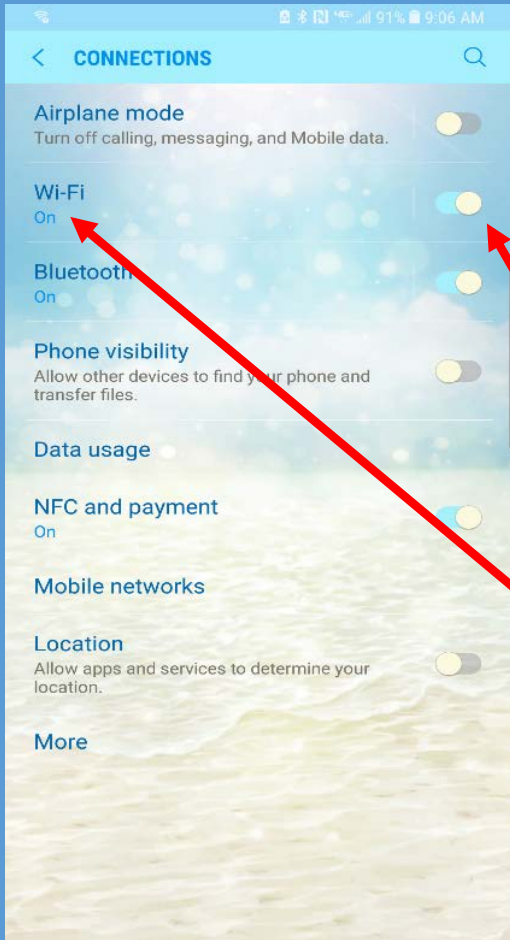

Click on your  
Settings Icon

Choose the **Connections** option  
*Note: Older Android models may not have a connections option and may skip this step*

Choose the Connections  
Option

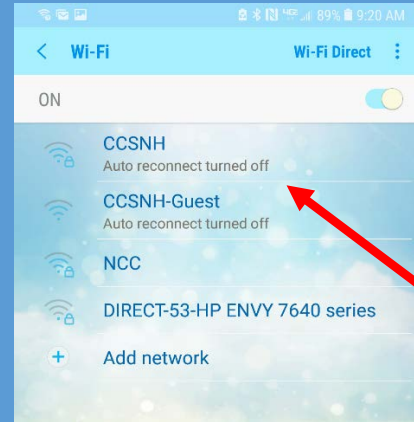

Under **Connections**, make sure Wi-Fi is turned on, then select Wi-Fi

Change Wi-Fi setting from off to on by clicking once

Click the Wi-Fi option

Your Android will automatically search for any available Wi-Fi networks in your area. This process may take a moment.

You will see a list of available networks please choose which wireless network you would like to connect to, either **CCSNH** or **CCSNH-Guest**.

Choose which network you would like to connect to.

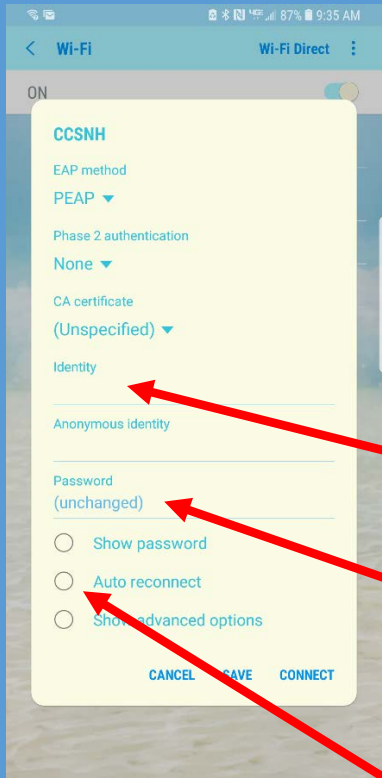

CCSNH will be used for any individual who has a valid CCSNH e-mail account while CCSNH-Guest will be used for anyone who is visiting the campus or has not yet been assigned an e-mail address.

**Although NCC is still visible it will no longer be an active network**

### CCSNH Network View

Once you have chosen the correct network, you will be prompted to enter your identity and password.

If logging into the **CCSNH Network** your identity and password will be the same as your username and password for your CCSNH e-mail. Please be sure that you select the option to **Auto Reconnect** to this network before connecting. After completing the required fields press **Save** then **Connect**.

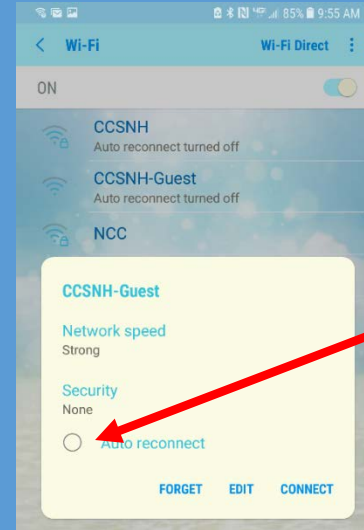

Your username goes here

Your password goes here

Click auto reconnect here

### CCSNH-Guest Network View

If you are choosing the **CCSNH-Guest** option please be sure to click the auto reconnect option before connecting to this network.

Click Auto Reconnect then click connect

You will be prompted to provide your full name and a current e-mail address. Be sure to read and accept the terms of use before selecting register.

Accept and read the terms of use
