Benefits of Data Analytics?

The Data Analytics program provides a strong base for students interested in developing skills to collect, organize, analyze, interpret and present data. Students completing the program can pursue employment or a baccalaureate degree in the area of data analytics.

The combination of courses in mathematics, computer science, and data analytics provides the student with the necessary knowledge and experience to use large data sets to make data driven decisions and to effectively communicate patterns and relationships. Program content is reinforced with hands on experience, and students will be required to apply course content to applications from business and industry.

Upon completion of this program students will have a strong foundation in computing, mathematics and data science needed to succeed in an entry level data analytics position or to pursue a baccalaureate degree.

Estimated cost of program Tuition and *fees only:

- In-State **\$ 15,998**
- NE Regional **\$20,303**
- Out-of-State **\$30,490**

Register

Register for all of the courses recommended each semester. Take at least 14-16 credits each semester to graduate in two years. A higher percentage of students graduate when they complete 30+ credits within their first year. (Research by Complete College of America)
