Benefits of Health Science

The Associate in Science in Health Science has been designed for students who have a desire to work in the health care industry or allied health, but who have not yet chosen a specific health field or area of interest.

The first year includes courses that would be required for general education as well as a career in the healthcare field. At the end of the first year, students will have the option of transferring to another associate degree program to complete their course work in a specific field or continue on to receive their associate degree with a focus on health.

With careful planning, the student will be able to earn credits that will fit their intended field of study. Matriculated students will work with a faculty advisor to design a program of study that meets the individual's needs.

Estimated cost of program Tuition and *fees only:

- In-State **\$15,270**
- NE Regional **\$19,380**
- Out-of-State **\$29,400**
