September 13, 2022

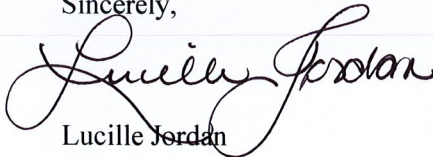

Dear ASE Visiting Team,

It is my pleasure to write this letter of support for the Honda Automotive Technology program at Nashua Community College. The college takes great pride in the quality of this program, and recognizes the importance of maintaining an Honda Automotive Technology program that is rigorous, high quality, and current. As such, the institution is committed to providing automotive instructors with ongoing industry training as well as tools and equipment that are up-to-date with current standards. Moreover, the college understands the importance of effectively providing ongoing support to the program, and as such, is committed to maintaining this level of support into the future.

NCC fully recognizes the value of the self-assessment process and the need to continually improve programming, services, and instruction. For these reasons, NCC appreciates ASE's role in ensuring the continued growth of the Automotive Technology program, as well the recognition that accompanies ASE accredited programs. We greatly look forward to maintaining this relationship in the coming years.

Please feel free to contact me if I can provide you with any additional information during this accreditation process.

Sincerely,

Lucille Jordan
