

## Testing Services

The Testing Services, located in a small room in the Walter Peterson Library learning Commons, affords the students an opportunity to take tests in a quiet, proctored environment. All testing arrangements must be arranged by agreement between the instructor and the student. The Testing Center requires 48 hours' notice to reserve a spot for the student. Days and hours are subject to change. Instructors who would like to reserve testing services for students should call Professor Quinn at 578-893, or visit the [testing services webpage](#).
