Benefits Computer Networking

This certificate teaches the skills necessary to provide IT support in a network environment. It begins with computers as the end devices in a computer network.

Part of this certificate, utilizing curriculum developed by Cisco Systems, teaches students to design, implement, and maintain the local and wide area network infrastructure. This includes all of the skills necessary to achieve CCNET or CCNA certification.

The other courses include the skills to place servers on that infrastructure in order to provide many of the network services that are expected today.

Certificate Students Are:

- Job seekers upskilling for a new career
- Recent high school graduates preparing for quick entrance to the workforce
- Already employed, but seeking a certificate to move up in the industry.
- College grads keeping up-to-date on best practices

Help Your Resume Stand Out

There are many benefits to completing a certificate program. If you are starting your job search, completing a certificate program will boost your skills and abilities, and it can even help you stand out in the job market.
