Health Science: Public Health Informatics and Technology Pathway

The field of Public Health Informatics and Technology (PHIT) focuses on collecting, storing, managing, analyzing, using, and sharing public health data to more efficiently and effectively impact population health.

Experts in PHIT, often referred to as public health informatics specialists or public health informaticians, use data analytics, visualization skills, and technology to innovatively solve public health problems.

This Health Science degree with a pathway in PHIT, is designed to be transferable to University of Massachusetts/Lowell where students can complete their Baccalaureate degree in Public Health/ Public Health Informatics and Technology.

You will then be prepared to enter this emerging field of public health and make a difference through work in health departments, nonprofits, community health centers and other health care settings

Pathways are a series of courses and experiences carefully selected to help you earn your credential and prepare for your career or university transfer.
