Benefits of a Psychology Degree

The Associate in Arts Degree in Psychology has been developed to provide the first two years of preparation for a student wishing to complete a bachelor degree with a major in Psychology.

Psychology is the wide-ranging scientific study and exploration of behavior and mental processes. Critical thinking skills such as interpretation, analysis, construction and assessment of material will be emphasized and developed.

Students should be aware that many careers in the field of professional psychology require a master's degree or doctoral degree, depending upon the career path selected.

The courses in this program are designed for students who intend to complete the first two years of a bachelor's degree program at Nashua Community College and then transfer to a four-year college or university to complete the bachelor's degree with a major in psychology.

Estimated cost of program Tuition only:
